Welcome Address

Dear colleagues,

Welcome to Thessaloniki for the **7th Meeting of the International Mediterranean Society of Orthopaedic Surgery** that will be held on the **22-24 of March 2018**. Thessaloniki was founded in 315 BC by Cassander of Macedon and is the second largest city of Greece with a long history and rich culture.

Together with the chairman of the International Mediterranean Society of Orthopaedic Surgery, Professor Jean - Noel Argenson, we are eager to present an exciting educational and scientific program combined with extraordinary social events. The academic program includes a wide range of orthopaedic topics that allow every attendant to enjoy the high standard didactic lectures from experienced orthopaedic surgeons that come from Europe, Mediterranean countries as well as different Arabic countries.

This meeting will give the opportunity to the attendees from different countries to meet, share, interchange ideas, and display their own surgical orthopaedic experiences.

Presentations, posters and research papers are encouraged to be presented by orthopaedic surgeons, residents and researches. Awards will be given to the top presentations or research investigators.

Please plan to attend and bring your families, as there will be a great social calendar that allows you to enjoy the sights and sounds of our beautiful city and to experience the worldwide known Greek Mediterranean hospitality.

I am confident that attendees will experience an exciting and interesting academic program and together with their families will appreciate the Greek amenities, the variety of social activities and the welcoming atmosphere.

I look forward seeing you in this 7th meeting of the International Mediterranean Society of Orthopaedic Surgery and I welcome you to Thessaloniki.

Kind Regards
