ELEMENTS OF DIPLOMACY

Success is achieved in using the available tools in the most efficient way. While diplomats often use words to express the views of their countries, the Model ASEM design has chosen to focus on tangible elements of diplomacy. Simple but powerful, each element represents the foundations of ASEM: diversity, consensus, exchanges, participation, cultures and opportunities.

A passport allows one to visit different countries and understand their cultures. At the Model ASEM participants have the opportunity to meet new people, while they absorb every bit of the host country's culture.
